### **DETAILED ACTION**

1. This is in response to the Applicant's arguments and amendments filed on December 07, 2005 in which claims 1 and 15 have been amended. Claims 1-23 are currently pending.

#### ***Drawings***

2. The drawings were received on 4/23/04. These drawings are acceptable.

#### ***Allowable Subject Matter***

3. After a further search and thorough examination of the present application and in view of the applicant's arguments and amendments, claims 1-23 are found to be in condition of allowance.

4. The following is an examiner's statement of reasons for allowance: the prior art teaches a memory coupled to the processor and a connector for receiving a removable wireless device.

On the other hand, the Applicant teaches, *inter alia*, an indicator coupled to the discreet logic device and shared between the wireless device and the network controller, for indicating multiple non-zone communication speeds of the wireless device, for indicating multiple non-zone communication speeds of the network controller, and for receiving the selected outputs from the discreet logic device. These limitations, in conjunction with all limitations of the independent claims, have not been disclosed, taught, or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
